1. TWO NEW MAJORS FOR 2015 IN THE LA TROBE B ARTS DEGREE

La Trobe is introducing two new major areas of study in the B Arts: Sustainability and Development and Communication Studies. In the new Sustainability and Development major you will look at the problems of poverty and environmental degradation and reflect on the importance of sociocultural, economic, environmental, historical and political considerations in shaping global issues. You will also take part in off campus experiences and gain a tool box of skills that you will be able to take into the workplace, enabling you to make a difference as a global citizen. In the new Communications Studies major you will study the social, political, economic and cultural role of the media. Your subjects will explore the changing role of press in society, media law and ethics, issues and crisis management and journalism production. You will also develop skills in research, writing and editing. If you have any questions please contact Annabel O'Neill at: A.ONEill@latrobe.edu.au.

2. STUDYING LAW AT ANU

The ANU College of Law has announced a change to its undergraduate law programmes, with the introduction of the B Laws (Honours). From 2015, the B Laws will be offered as an embedded Honours programme. This means all students commencing from 2015 will graduate with a B Laws (Honours) – LLB(Hons) – degree. Students will be able to undertake the degree as a single degree, or as part of a Flexible Double Degree. In addition to an enhanced focus on research, the ANU LLB(Hons) equips students with a broader range of skills, a stronger foundation for postgraduate study and reflects the research intensive status of the ANU. Please contact Michelle Mabelle via email: michelle.mabelle@anu.edu.au for further information.

3. NEW COURSE – B NURSING (CLINICAL LEADERSHIP) AT DEAKIN

Deakin University is offering a new course at the Burwood campus in 2015; the B Nursing (Clinical Leadership). This three year course is the only Nursing degree in Victoria with a focus on mentored clinical leadership. The course reflects the need for students to be adequately prepared to promote patient safety and provide quality patient care. It will include all 17 B Nursing core units, including the Leadership and Clinical Governance unit along with another three core units that focus on developing leadership knowledge and skills. Students will participate in practical workplace experiences during two of the leadership units which will provide them with the opportunity to observe and work with mentors from the university’s partner organisations in a clinical setting. These units are designed to develop and enhance leadership potential as they are focused on nursing management and leadership, research and education. Health care is one of the most important priorities for populations worldwide. Consultation with Deakin’s health care partners indicates that graduates of the course will be highly regarded because of their demonstrated skills in management and delegation, their understanding of research excellence and their ability to educate others. The current healthcare environment is restructuring and would benefit from high achieving individuals with an excellent understanding of leadership in the healthcare setting. To be admitted into the B Nursing (Clinical Leadership) domestic students must have satisfactorily completed the VCE and met the prerequisite of VCE units 3 and 4 – a study score of at least 25 in English. Interested students should apply through VTAC. For more information visit: deakin.edu.au/health/nursing/prospective.

4. SCHOLARSHIPS AT SWINBURNE

Swinburne’s Vice-Chancellor’s Scholarships are guaranteed to any Year 12 graduating student who achieves an ATAR of 95 or above. In addition, a further 200 scholarships are available for other high achieving Year 12 students. A range of access and equity scholarships are also available for students
with a disability, students from low socioeconomic backgrounds, indigenous students and students from regional backgrounds. Learn more about the Swinburne scholarships available at: http://www.swinburne.edu.au/vtac/scholarships/

5. SWINBURNE NOVEMBER INFORMATION EVENING

This will be held on Thursday 27th November at the Advanced Technologies Centre, Hawthorn campus from 4:00 – 6:30pm. At this event students will learn all they need to know about the Swinburne undergraduate and TAFE courses. You will receive practical advice and help in choosing the right course, so you can hopefully get the job you want. Students will also be able to apply for some courses on the spot or seek advice regarding their VTAC application. To find out more, or to register, visit: http://www.swinburne.edu.au/vtac/info-evening/.

6. SELECTION INTO RMIT’S DIPLOMA BUILDING AND CONSTRUCTION (BUILDING)

Selection information in VTAC for the Dip Building and Construction (Building) states that Year 12 applicants need to telephone RMIT to book a test to be eligible to be selected into this course. Please note this is incorrect. Year 12 applicants will be selected into this course solely on their ATAR. For further information contact RMIT Student Recruitment on 9925 2555 or email: student.recruitment@rmit.edu.au.

7. PRE APPRENTICESHIPS – A POSITIVE MOVE

A pre apprenticeship is a positive move towards securing an apprenticeship. Many employers require potential employees to have completed a pre apprenticeship prior to applying for an apprenticeship. On completion of a pre apprenticeship, a student receives a nationally recognised qualification; this attracts the attention of employers and can potentially also reduce the time required to complete an apprenticeship. RMIT offers pre apprenticeship programmes in Plumbing, Electrical, Refrigeration and Air Conditioning and, new in 2015, a pre apprenticeship in Construction (see below). For further information contact RMIT Vocational Engineering on 9925 4632.

8. NEW IN 2015 AT RMIT: CERTIFICATE II IN CONSTRUCTION PRE APPRENTICESHIP

Commencing in 2015 at the RMIT City campus, this 10 week programme is designed to equip students with underpinning construction training and knowledge leading to an apprenticeship in carpentry, or a pathway into building and construction. Students will have the opportunity to work alongside other trade students such as plumbers and electricians, as well as working closely with students on simulated residential and commercial projects. For further information contact Luke Buchanan on 9925 8096 or email: sove@rmit.edu.au

9. RMIT SCIENCE EXPERIENCE 2015

The RMIT Science Experience is three fun filled days of hands on practical activities for students entering Year 10 in 2015. This very popular school holiday programme allows Australia’s next generation of curious scientists to go behind the scenes and sample the exhilarating world of science and technology. Students will perform experiments, participate in field trips, attend university lectures and experience three days of student life on campus. The programme runs from Tuesday 20th January – Thursday 22nd January, 2015 and costs $115. For further information, and to register, visit: www.scienceexperience.com.au.

10. ENVIRONMENTAL ENGINEERING PHOTOGRAPHY COMPETITION (RMIT)

Secondary school students are invited to show off their photography skills in an RMIT environmental competition. Locate an environmental issue such a dry river bed, a rare species of animal or a local garbage tip and photograph it. Submissions should
include a caption detailing the issue and a possible solution to the problem. A total prize pool of $1500 is available to win. For further information visit: www.rmit.edu.au/engineering/photo-comp.

11. ACCOMMODATION APPLICATIONS FOR MONASH ARE NOW OPEN

Applications for accommodation to live on campus in 2015 are now open for the Clayton, Berwick, and Peninsula campuses. Note that there will not be any accommodation offered by Monash Residential Services (MRS) at the Caulfield campus in 2015. Applicants studying at Caulfield are encouraged to apply for Clayton accommodation and take advantage of the free shuttle bus service that the University provides. There are many benefits to living on campus, including the high level of pastoral support, residential programmes, scholarships and leadership opportunities. Prospective applicants should visit the website: http://www.mrs.monash.edu.au/ to assist you in choosing suitable accommodation options. Monash recommend that applicants visit the application link: http://mrs.monash.edu.au/oncampus/application s.html and apply as early as possible to avoid disappointment, as accommodation is offered on a first in, best dressed basis. No application fees apply. Please contact MRS at: http://www.mrs.monash.edu.au/ for further information.

12. BUSINESS AND ECONOMICS AT MONASH: 1+1 DOESN’T ALWAYS = 2

Everybody knows one plus one equals two but, when talking about a double degree at Monash, the maths is even simpler. A standard bachelor degree is three years, but in most cases students can graduate from a double degree in four years. That’s double the degree without double the time! Double degree students will graduate with two different qualifications, allowing more career flexibility and opening up more opportunities. Combining a B Commerce, B Business or B Economics with another degree, opens up a world of possibilities. Students can study a language, a second profession, a completely different area of business, or other areas they may be interested in, such as engineering, medicine, arts, law and more. All Monash business courses include compulsory core units (which students must do) and electives (which students can choose based on their interests). In a double degree, the compulsory units in one degree form the electives in the other and vice versa. Students will still study the core units to complete each course, but the units they study will count towards both degrees. The workload in a double degree is the same as in a single degree, with students undertaking four units per semester. Monash has one of the most comprehensive double degree programmes in Australia, offering combined degrees across all faculties and disciplines. Some examples of popular business combinations include B Commerce / B Engineering, B Laws / B Commerce and B Arts / B Business. For more information on the Monash double degree offerings visit: http://www.buseco.monash.edu.au/future-students/undergraduate/courses/why-choose-dd.html.

13. MONASH WOMEN IN INFORMATION TECHNOLOGY (IT) SCHOLARSHIP

Calling all women interested in IT. Monash is offering a $6,000 one off payment to up to 50 young women who enrol in a Monash IT course in 2015. The payment is based on academic achievement and will be awarded to high achieving students. It cannot be deferred. No application is required. Please apply for a course through VTAC will be automatically assessed. For further information visit the IT scholarship website: http://www.infotech.monash.edu.au/future/scholarships/.

14. THE UNIVERSITY OF MELBOURNE STRENGTHENS ITS POSITION IN THE WORLD RANKINGS

The University of Melbourne has once again strengthened its leadership standing, having recently been ranked number 33 in the world in the Times Higher Education World University Rankings – one place higher than the previous year. “The results are very strong also for many other Australian
universities, with five included among the world's top 100,” says Vice-Chancellor Professor Glyn Davis. The University of Melbourne retains its number one ranking in Australia. The Academic Ranking of World Universities (ARWU) ranking offers a similar conclusion to the research specific Shanghai Jiao Tong Academic Ranking of World Universities, where Melbourne is ranked number 44 from 54. “It is an important achievement to have a university ranking within the 50 best research universities in the world,” Professor Davis said. This is the fourth successive year Melbourne has been ranked number one in Australia in the ARWU. In the QS World University Rankings Melbourne is ranked 33rd in the world and 13th in the world for graduate employability. The QS World University Rankings also ranked 12 subject areas of the University as number one in Australia. This cements a leading position in the fields of Engineering and Technology, Life Sciences and Medicine, Natural Science and Social Sciences. To learn more about the University of Melbourne rankings visit: www.futurestudents.unimelb.edu.au/explore/why-choose-melbourne/reputation-rankings.

15. HAVE YOU SUBSCRIBED TO ‘MY MELBOURNE’?

My Melbourne is the University of Melbourne’s e-newsletter and blog for future students. It is packed full of the latest University news, inspiring student stories and plenty of useful information, such as course and scholarship information, handy hints about course selection, tips for making the transition from high school to university and inspiration and advice for planning your future. You can subscribe now at: blogs.unimelb.edu.au/mymelb.

16. NEW POST GRADUATE PROGRAMME IN 2015 AT THE UNIVERSITY OF MELBOURNE: MASTER OF TRANSLATION

The Master of Translation is a new graduate programme for Mandarin Chinese - English bilinguals that will be offered by the Graduate School of Humanities and Social Sciences at the University of Melbourne. This programme will prepare students for a career as a professional translator or for work in international relations, government, commerce and / or law. Students will develop professional competence in translating specialised topics, managing terminology, using translation technologies and negotiating the cultural and intellectual boundaries of the Chinese and English speaking worlds. An internship component of the programme allows students to develop their professional translation skills in practice within industry. To further enrich their studies in translation, students may also undertake elective subjects in the broad fields of culture and communication and languages and linguistics. Although the Master of Translation is currently only offered for Chinese (Mandarin) and English languages, the University will look to introduce other Asian and European languages in the future. The Master of Translation programme can be considered as a graduate option following a B Arts or completion of a Chinese major at undergraduate level. More information about the programme can be found at: http://graduate.arts.unimelb.edu.au/master-of-translation

17. CAN AN UNDERGRADUATE DEGREE IN AGRICULTURE QUALIFY AS A PATHWAY FOR THE DOCTOR OF VETERINARY MEDICINE (DVM)?

Students who undertake the B Agriculture are eligible to apply for the Doctor of Veterinary Medicine (DVM) at the University of Melbourne. Students who complete a major in Production Animal Health in their B Agriculture degree can receive credit for up to 30 per cent of the first year of the four year DVM. A study plan for the Doctor of Veterinary Medicine can be found at: fvas.unimelb.edu.au/study/courses/doctor-of-veterinary-medicine/degree-structure#nav. The pathway to studying Veterinary Medicine at Melbourne can be found at: coursesearch.unimelb.edu.au/pathways/10-veterinary-medicine.

18. HUME MULTIVERSITY INFORMATION SESSIONS

If you are still unsure about which university or TAFE course to choose, these information
sessions may help you make a decision. Located at Hume's Global Learning Centres, Hume Multiversity provides course options close to home. Learn about your options by attending an information session. Participants will be provided with information about the degrees, the study options available, admission requirements, fees and the application process. Deakin University sessions will include information about the B Early Childhood Education, Associate Degree of Arts, Associate Degree of Education and B Psychological Sciences. The information session will be held at the Hume Global Learning Centre in Craigieburn on Tuesday 9th December, 6:00 – 7:00pm. Find out about La Trobe University's Tertiary Enabling Program (TEP) at the Hume Global Learning Centre on Wednesday 3rd December at 10:30am. Visit: http://www.hume.vic.gov.au/Libraries_Learning_Programs_Events/Your_pathway_to_university/Hume_Multiversity for more information about Hume Multiversity and the courses offered.

The new B Biosecurity degree at Box Hill is a timely addition to the courses they offer. It covers a relevant field of study with the current global concerns about the spread of the Ebola virus. It will also suit those who are passionate about protecting the environment in general and provides a broad range of work opportunities. A study score of 20 in English is required and completion of any Units 3 & 4 Mathematics. Application is through VTAC: http://www.vtac.edu.au/CourseSearch/searchguide.htm?courseCode=5100210122.

Features of the qualification include guaranteed pathways from Box Hill Institute’s Diploma of Animal Technology or Diploma of Lab Technology into the degree, site visits to business / industry as integral components of the course and an eight week full time industry project in the final semester to assist with the transition to employment. Undertake this degree and become part of Melbourne’s growing biosecurity hub. It is anticipated that by 2017 Melbourne will become a biosecurity hub with the development of the Post – Entry Quarantine facility in the northern suburbs. More details are available on the Box Hill website at: http://www.bhtafe.edu.au/courses/local/Page s/BBS01.aspx.

20. JOURNALISM INDUSTRY DAY AT MACLEAY COLLEGE

Senior students are invited to get an idea of what a career in the media is really like. Macleay College will open the doors of its Melbourne campus from 10:00am – 1:00pm on Saturday 25th October at 55 Brady Street, South Melbourne. RSVPs are essential as places are limited: http://macleay.edu.au/?gclid=CKrjnunXqsECF UNxvAodfwoAvg. Learn about the skills needed to be a journalist in the digital age. In the session students will be mentored by professional journalists as they work in the live newsroom, where they will be briefed on a story and given a deadline to deliver it and then see it uploaded live. Students will also record a live piece to camera that will be hosted on the Macleay website.

21. B COMMERCE (APPLIED FINANCE) NEW FOR 2015 AT VU

Are you interested in Finance? The new B Commerce (Applied Finance) could be the ideal course. The curriculum aligns with the internationally recognised Chartered Financial Analyst (CFA) Institute's Candidate Body of Knowledge. Students of this course will acquire professional competencies and highly valued generic skills such as critical thinking, teamwork / collaboration and effective communication. The course gives students the opportunity to undertake an overseas study tour, industry placements, workplace based projects with case based scenarios and the opportunity to take part in a mentoring programme. The B Commerce is being offered with a flexible study schedule at the VU City Flinders Campus. The expected ATAR is 75+. VU’s many established links with industry partners means they can offer students industry placements specifically designed for commerce students. Students will be exposed to authentic case studies and the application of theories and analytical techniques in a real world professional
practice. Prerequisites for the course are: Units 3 and 4: a study score of at least 25 in English (any); and 30 in Further Mathematics or at least 25 in Methods and / or Specialist Mathematics. Victoria’s financial services contribute around $36 billion to the Victorian economy annually and employ more than 120,000 people. The industry is a key enabler of all other industry and business sectors, providing access to capital and money management services. It is expected that graduates of this course will have excellent employment outcomes. For more information visit: vu.edu.au/courses/bachelor-of-commerce-applied-finance-bbco.

22. VU COURSE INFORMATION SESSIONS

VU are offering a number of course specific information sessions where students can learn more about studying their preferred course. The sessions include a course presentation followed by the opportunity to meet with future teachers and ask questions about the course. Aged and Community Care: 22nd October, 10:00am – 11:30am; 5th November, 10:00am – 11:30am; 19th November, 10:00am – 11:30am; 3rd December, 10:00am – 11:30am. Beauty Therapy: 10th November, 6:00pm – 7:15pm. Dermal Therapies: 27th October, 6:00 – 8:00pm; 17th November, 5:00 – 7:00pm. Music and Sound Production: 21st October, 7:00pm – 9:00pm. Specialist Make-up: 22nd October, 6:00pm – 7:00pm; 11th November, 600pm – 7:00pm; 10th December, 2:00pm – 3:00pm.

23. A CAREER IN RADIATION ONCOLOGY

Resource materials have been developed to educate the community about a career in Radiation Oncology, including information about a career as a radiation oncologist, radiation therapist or radiation oncology medical physicist. A general video about radiation oncology can be viewed at: http://youtu.be/5E5ssMKEBHs; information for prospective Radiation Therapists at: https://www.youtube.com/watch?v=qXT8k2C-KY, Radiation Oncologists: https://www.youtube.com/watch?v=yzYCDmaS7bU and Radiation Oncology Medical Physicists: https://www.youtube.com/watch?v=NTzNto3jrqk. The website can be accessed at: www.acareerinradiationoncology.com.au.

24. VTA LOGISTICS CADETSHIP RECRUITMENT 2015

The VTA Logistics Cadetship is a 2 year programme where young people are employed full time with Transport and Logistics companies while they study a Cert IV in Logistics and a Dip Logistics. Cadets are released from work to attend blocks of study at TAFE throughout the year. A mentor is allocated to them in their workplace. Cadets are moved to different areas within the company to provide an understanding of the business. Applicants must have completed Year 12 (VCE or VCAL), be aged between 18 and 25 and have a drivers licence or be about to obtain one. For further information telephone: 9646 8590, email: cadetship@vta.com.au or visit: www.vta.com.au.

25. RESUMES FROM EVERY ANGLE

Youth Central’s resumes and cover letter templates are designed to meet the standards of 21st century recruitment strategies. Visit: youthcentral.vic.gov.au to learn more.

26. WHAT IS REQUIRED TO BE A POLICE OFFICER?

A series of videos has been produced to allow the community to learn more about what it takes to become a police officer. View a police constable’s experiences during the 33 weeks of training at the Victoria Police Academy by visiting: www.youtube.com/VPBlueTube.

27. DEFENCE FORCE CHAT

The Army, Navy and Air Force are hosting an Australian Defence Force Academy (ADFA) Facebook chat at 6:30pm on Thursday 23rd October. The link to the chat page is: http://www.facebook.com/events/1485699831716414/.

28. FIVE SCIENCE JOBS THAT CAN “CHANGE THE WORLD”
The following is from an article emailed to Career Counsellors by the “My Career Match” organisation: ‘Do you want to make an impact on the world?’ Here is a guide to 5 jobs that can help you change things for the better.

1: Ecologist  
[https://www.youtube.com/watch?v=jH40BQxlzhA](https://www.youtube.com/watch?v=jH40BQxlzhA)  
Ecologists study the relationships between animals, plants, people and their physical surroundings. The minimum qualification is usually a first degree in a biological or environmental subject such as ecology, conservation biology, environmental biology, environmental management or marine biology. Many employers look for postgraduate qualifications. Experience as a research assistant or a conservation project volunteer may also be advantageous.

2: Hydrologist  
[https://www.youtube.com/watch?v=X6OtNrCZ7D8](https://www.youtube.com/watch?v=X6OtNrCZ7D8)  
Hydrologists monitor, manage and conserve the earth's freshwater resources. They also monitor and analyse rainfall. Most hydrologists hold a degree in a relevant subject, such as geography, environmental science, civil engineering or mathematics. The diploma in environmental and land based studies may be relevant. Most hydrologists also have a postgraduate qualification.

3. Immunologist  
[https://www.youtube.com/watch?v=mgpNJgx2VRc](https://www.youtube.com/watch?v=mgpNJgx2VRc)  
Immunologists study the body's immune system and how it works in combating disease. They use this knowledge to treat and control a range of diseases and disorders, such as allergies, cancer and AIDS. Doctors specialising in immunology will have completed a medical degree and specialist training. Many other immunology posts require a degree in immunology or a related subject such as medical microbiology, genetics or biomedical science. Some jobs, especially those based in universities, need a postgraduate qualification, such as a Master of Science or a PhD.

4: Marine biologist  
[https://www.youtube.com/watch?v=EAZvxukW8kY](https://www.youtube.com/watch?v=EAZvxukW8kY)  
Marine biologists study the plants and animals that live in the world's oceans. Their studies help us predict how marine ecosystems will cope with changes such as global warming, pollution or pressure from fisheries and tourism in sensitive areas. Entrants for research posts need a relevant science degree and usually a postgraduate qualification. Some entrants complete a degree in marine biology or oceanography, although it is not essential to study these subjects. It is possible to complete a degree in any of the biological sciences and then go on to specialise in marine biology with a Masters or PhD qualification.

5: Oceanographer  
[https://www.youtube.com/watch?v=kxb-KjeOZBc&list=PL5SUN-gc7GC51p1VFayE6yXUYOUGE5pZR&index=8](https://www.youtube.com/watch?v=kxb-KjeOZBc&list=PL5SUN-gc7GC51p1VFayE6yXUYOUGE5pZR&index=8)  
Oceanographers are scientists who study the relationship between seawater, fresh water, the polar ice caps and the atmosphere. Their research can influence industrial processes and government policy. Employees usually have a first degree in physics, chemistry, maths or biology, followed by a postgraduate degree in oceanography. For a first degree, applicants need maths and science subjects. Entry to a Masters degree is usually with a first degree in a science discipline. Almost all vacancies require a Masters degree and, increasingly, employers are now looking for applicants who have completed a PhD.

29. HOTEL MANAGEMENT AT WILLIAM ANGLISS  

The Advanced Diploma of Hospitality (Hotel Management) focuses on providing students with frontline and management knowledge to work in all aspects of Hotel Management. Students learn theoretical knowledge and practical skills in the William Angliss onsite training hotel suites and restaurants. This course has an industry placement programme, where students experience placement at a work site for 6 months in a range of roles within the hotel industry. Major studies include Accommodation Services, Budgeting, Business Operations and Planning, Food and Beverage Services,
Function Coordination, Hotel Guest Services, Hotel Reception Services and Marketing. There are no prerequisite subjects. Selection is based on ATAR, completion of a Pre Training Form and an Interview. A VTAC application is required for school leavers for February 2015 entry. For more information about the course please visit the Hospitality webpage: http://www.angliss.edu.au/future-students/courses/item/49-hospitality.

30. SCHOLARSHIPS AT WILLIAM ANGLISS

William Angliss Institute provides educational opportunities and financial assistance to support commencing and current students. Scholarships available to commencing domestic students at William Angliss in 2015 include Degree Scholarships, Sir William Angliss Scholarships - for any Certificate, Diploma or Advance Diploma course and the Nestle Golden Chefs Hat Scholarship – for Commercial Cookery. Students can apply for an Academic Excellence Scholarship and / or Equity (financial and educational disadvantage) scholarship. Applications for the Sir William Angliss and Nestle Golden Chefs Hat Scholarships close 15th November 2014. Applications for Degree Scholarships close 9th March 2015. For more information and to download a Scholarship application form visit: http://www.angliss.edu.au/component/k2/item/205-degree-scholarships?highlight=WyJjZ2hvbGFyc2hpcHMiXQ==

31. NEW AT THE CAE CITY CAMPUS: DIP INTERIOR DESIGN & DECORATION

This qualification is typically used to develop skills and knowledge about furnishings, finishes and aesthetic presentation to meet the purpose, efficiency and comfort of a space. Students gain a detailed understanding of the application and effect of colour and pattern in interior space and the application of historic furnishing styles and their relationship to architectural periods and heritage projects to provide a full range of decoration services, consultation and design advice. Selection is based on ATAR, an application from and an interview and folio presentation. For more information visit: http://www.bhtafe.edu.au/courses/localPages/DID5A.aspx.

32. GAP MEDICS – SUMMER WORK EXPERIENCE OVERSEAS

Gap Medics are offering their annual Australian Schools Summer Programme to students, designed to give you an unforgettable insight into life as a healthcare professional. The programme is hugely popular each year as students aged 16 years and older are offered the chance to shadow doctors and other healthcare workers in Thailand, Tanzania or Europe. The specifics of the programme can be found at: http://www.gapmedics.com.au/blog/2014/07/08/australian-summer-special-2015. You can also telephone Mark Hinksman on 1800 351 691; email: mark@gapmedics.com or visit: www.gapmedics.com.au for more information.

33. ACU: ‘A LIFE LESS ORDINARY’

The ACU tagline for study in 2015 – ‘A life less ordinary’ – summarises their mission to inspire and equip students for a future which is not only materially successful, but personally satisfying and rewarding for the whole community. With this, a great new website has been developed to allow students to browse ACU’s range of courses, meet current students and keep on top of key dates. The new life-less-ordinary.org website has already been nominated for several design awards and is an easy way to explore everything ACU has to offer.

34. THE ACU ATAR CRUNCHER

The new ATAR cruncher tool is now live on the ACU ‘A life less ordinary’ website. This tool allows prospective students to search for ACU courses based on their anticipated score, filtering results by campus and discipline. It’s a very useful tool for all school leavers, especially coming up to the change of preference period and on campus information sessions.
